Intensive Care in Germany

Data Source

DIVI-Intensivregister monitors the ICU capacities of 1,300 hospitals in Germany.

Setup

```
In [1]:    # standard library
           import datetime
           import math
```

```
In [2]:    # third party
           import numpy as np
           import pandas as pd
           import matplotlib.pyplot as plt
           import requests
```

Date this Notebook was run

```
In [3]:    today = datetime.datetime.today().strftime('%Y-%m-%d')
           today
```

```
Out[3]:    '2021-08-05'
```

```
In [4]:    # style like ggplot in R
           plt.style.use('ggplot')
```

```
In [5]:    # Avoid cutting off part of the axis labels, see:
           # https://stackoverflow.com/questions/6774086/why-is-my-xlabel-cut-off-in-my-matplotlib-plot
           plt.rcParams.update({'figure.autolayout': True})
```

Get Data

```
In [6]:    timeline_data = "https://diviexchange.blob.core.windows.net/%24web/bundesland-zeitreihe.csv"
```
In [7]:
```python
timeline_df = pd.read_csv(timeline_data)
```

In [8]:
```python
timeline_df.tail(3)
```

Out[8]:

	Datum	Bundesland	Anzahl_Meldebereiche_Erwachsene	Aktuelle_COVID_Faelle_Erwachsene_ITS	Belegte_Intensivbetten_Erwachsene
